They have kept up their work under the handicap of being forced to apply themselves with only partial equipment and limited hours of meeting. However, they are looking forward to the early arrival of the remainder of their apparatus and then expect to redouble their efforts to compensate for the loss of time in the tardiness of their equipment. It is probable, also, that matters will be arranged so that the boys and Mr. Flury may meet this summer to maintain their standard and to permit the growth of their knowledge of the technique of radio.

At present there are great splotches of red on the walls of the armory, parts of the first coat of paint. After red, comes a lighter color, and then comes the color the walls are to remain, a light color, between a dull red and orange. Just above the top of the gun racks, in large lettering, is to the cadets' creed: "I believe in honesty, sincerity and the square deal; in making up one's mind what to do and doing it; I believe in fearing God, and taking one's own part; I believe in honest sport and hard work; I believe we have room for but one soul loyalty, and that is loyalty to the American people; I believe in a sound mind, and in a sound body."

Just above the creed on the north and south walls are to be shields of blue, on which will appear in white the names of Central's cadet companies. At the east end will be an immense tenax propositi seal, and at the west end will be an equally large United States seal. The clock will be placed over the entrance. The iron firders, which stretch across the walls. On the girders will be a number of shields, blut and white, alternated with American flag shields. On those of the school colors will be placed the name of each placing company every year.

"March" from "Aida" (Verdi); Glee Club. "Recessional" (De Koven); orchestra. "Awake! Awake!" (Cadman); soprano solo "In Maytime" (Speaks). It is with great satisfaction that the students and faculty of Eastern review the happenings of the base ball season. Not for some time has the base ball team developed itself to such a degree of efficiency and success as has the aggregation of 1922. The school looks with pride at Eastern's standing and at her "stars," notably Gladstone Roudabush, who notably Gladstone Roudabush, who attained a record of strike-outs and wins. ARMSTRONG MANUAL TRAINING

With the base ball championship safely stowed away, Armstrong is now weighing its chances of carrying off the white flag in the coming competitive drill. She has four captains, first among whom is the veteran Blackwell, who resigned from a majorship in order to lead a company on the fleld in his senior year. He is fortunate in having as his associates one seasoned officer. Lieut. Blakey. With the base ball championship one seasoned officer, Lieut. Blakey,

and the diminutive Shamwell.
Capt. Wilbur Webb, like Shamwell, is small of stature, but by strict attention to military duty and an unusual amount of perseverance he has overcome this handicap and has one of the best disciplined and most loyal mpanies in the school. Like Black

vell, he is a senior.

Commanding the 3d Company is capt. Charles Quander, who has beaind him the splendid co-operation of his cadets.

The junior company is directed by Powell Allen, who is the only officer who has won his spurs by a theoretical and practical field examination. Members of the military are pulling hard for a win. If the white flag comes to Armstrong this year they will have had three wins out of five starts, which, considering the handicaps they have overcome, will not be a bad percentage to turn in. Loyal alumni are beginning to show up also to give the boys a slight pallshing up. o give the boys a slight polishing up.

Girls! That Derwillo Complexion is a "Stay There" Complexion

So why waste time on face powder that comes off as fast as you put it on when you can use derwillo, the "stay there" beautifler? Hot weather or perspiration does not affect it and when applied properly its use cannot be detected. It gives the skin that youthful babylike softness and rosy tint every normal woman craves. Just make this test: Some warm day use your regular face powder, time it by your watch and see how long it stays on. Then under exactly the same conditions use derwillo and note the difference. It not only stays on longer, but it looks more natural. Compare it with any beautifier or powder you have ever used and you will need no argument to convince you that there is nothing as satisfactory as derwillo. Try it when you go bathing and see how much better it stays on than any face powder regardless of the price. No other beautifier or face powder can give you a more attractive appearance. Derwillo is becoming a regular fad everywhere, and over one million girls and women are now using it in preference to everything else. Actresses use more face powder than any other class and they know how harmful some powders are. For that reason many of them now use derwillo used for the prominent actresses using derwillo used flaum, viola Dana, Anna Q. Nilsson, Louise Huff, Ruth Roland and scores of others. If you use derwillo once you will become just as enthusiastic as they are and never be without it. Another important thing to remember is that no other beautifier is sold under the same guarantee. If you don't like derwillo, the store from which you made the purchase will gladly refund your money. This liberal guarance and everywhere, and over one million girls and women are now using it in preference to everything else. Actresses use more face powder than any other class and they know how harmful some powders are. For that will or the prominent actresses using derwillo use flaum, viola Dana, Anna Q. The final public debate of the freshman class was interesting. The president of the class of 1924. Miss Minnie James, presided, and Richard H. Hart acted as timekeeper. The subject of the debate was: "Resolved, That the government should own and operate the coal mines." It was opened for the affirmative by Parley Norseth, who also had the closing. The negative side of the question was opened by Miss Mary L. Kessler. The other debaters were Samuel Blackham and Margaret Ranahan for the affirmative, and I. L. Stormont and Mrs. Jennie O. Berliner for the negative. The judges were Thomas F. Flathery, Mrs. Bessie P. Brueggeman, commissioner of the federal employes compensation commission, and Judge Mary O'Toole. While the judges were in consultation, speeches were made by the dean, Ellen Spencer Mussey, and Prof. Leo A. Rover. Mr. Flathery, acting as chairman, gave the decision in favor of the affirmative, with first honors to Parley Norseth and second honors to Mrs. Jennie O. Berliner, Mr. Flathery voiced the opinion of the judges that the debate was well conducted and the deb On Friday the Sigma Chi Fraternity held an informal dance at its house, 1312 N street northwest.
